CHINA WIRELESS RESEARCH COVERAGE INITIATED BY COASTAL RESEARCH ASSOCIATES

DENVER, CO February 17, 2004 / PRNewswire – First Call -- China Wireless Communications, Inc. (OTCBB: CWLC) is pleased to announce that research firm, Coastal Research Associates, LLC (CRA) of Tampa, Florida has produced a research report on China Wireless Communications, Inc. Lead analyst Mr. Christopher D. Gilcher has issued his in-depth 15 page research report on China Wireless and the Chinese telecom environment. In his report, Mr. Gilcher outlines the Chinese evolution within the telecommunications and Internet sector and how China Wireless provides the critical “Last mile connection” within the industry. The Management of China Wireless invites all of its employees, shareholders and the general investment community to read this detailed research report. A copy of this report may be obtained by visiting either www.chinawirelesscommunications.com or www.coastalresearchonline.com.

About Coastal Research Associates, LLC:

(www.coastalresearchonline.com)

Coastal Research Associates, LLC (CRA) is a research firm that provides research services to publicly traded emerging growth companies for a fee. All of CRA's research reports are written by experienced analysts with a goal of providing a fair and balanced assessment of the Company's long-term business prospects. CRA's primary mission is to provide research services to publicly traded emerging growth companies that may have promising long-term investment prospects but who are being overlooked by Wall Street and the investment community at large. China Wireless has paid CRA a fee of 30,000 shares of the Company's restricted common stock in consideration for the production of the report and for subsequent updates to the report.

About China Wireless Communications, Inc.:

(www.chinawirelesscommunications.com)

China Wireless Communications, Inc. based in Denver, CO develops, installs and markets wireless broadband networks and provides Internet access in Beijing, China. Using the most reliable wireless technology, China Wireless provides the 'last mile' connection between their telecommunications partners and customers. Examples of applications provided are redundant high-speed backbones, Voice over IP, VSAT, and transport connections, which include IP data, video, and ISP services. The Company is publicly quoted on the OTCBB under the symbol “CWLC”.

Forward Looking Statements:

Statements regarding financial matters in this press release other than historical facts are “forward-looking statements” within the meaning of section 27A of the Securities Act of 1933, Securities Exchange Act of 1934, and as that term is defined in the Private Securities Litigation Reform Act of 1995. The company intends that such statements about the company’s future expectations, including future revenues and earnings, and all other forward-looking statements be subject to the safe harbors created thereby. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company’s actual results may differ materially from the expected results.
