DR. DAVID FU JOINS CHINA WIRELESS'S BEIJING OPERATION AS TECHNICAL DIRECTOR

DENVER, CO March 10, 2004 / PRNewswire – First Call -- China Wireless Communications, Inc. (OTCBB: CWLC) is pleased to announce the appointment of Dr. David Fu as technical director of CWLC's Beijing operation (In-Touch). Dr. Fu has a breadth of experience and knowledge in technologies including ATM/FR, IP, VOICE/VOIP, Multimedia, SDH/MSTP, NGN, and WMAN. He will head the company's China technical and engineering team and be responsible for the plan, design, establishment and maintenance of In-Touch's Metro Network system and technical services. Dr. Fu will be a valuable resource to provide support to the company's national and international customers.

Dr. Fu has held varied positions within Gaohong Telecom, a branch of DTT, one of the biggest Telecom equipment and solution providers in China. Most recently he served as chief engineer in Gaohong Telecom where he directed engineering, R&D and technical support team in the area of ATM/IP, MAN and NGN. During the time Dr Fu was in DTT, he acted as consultant for CTC, CRC and China Unicom in the construction of their metro area networks. His engineering accomplishments include the design and completion of CNC's Beijing ATM network, one of the biggest ATM networks in China, and building one of the earliest NGN test-bed in Guangzhou, Jinan CRC Wireless Public Telephone Network.

Dr. Fu is a member of IEEE Communications Society. He earned a Ph.D in Telecommunications and information engineering from Beijing University of Posts and Telecommunications in 1999. During that time he was responsible of the design and construction of multimedia communication system of the military. His research interest is in wireless broadband, NGN, multimedia communications and MSTP. Dr. Fu has published 20 papers in academic journals.

About China Wireless Communications, Inc.:

(www.chinawirelesscommunications.com)

China Wireless Communications, Inc. based in Denver, CO develops, installs and markets wireless broadband networks and provides Internet access in Beijing, China. Using the most reliable wireless technology, China Wireless provides the 'last mile' connection between their telecommunications partners and customers.
