CHINA WIRELESS COMMUNICATIONS RENEWS TECHNOLOGY SERVICE CONTRACT WITH LOGISTIC CORPORATION

Denver, CO, May 17, 2004, China Wireless Communications, Inc. (OTC Bulletin Board: CWLC) announces that it has renewed a technology service contract for one year with Beijing Hezhong, a professional logistic corporation located in south central business district of Beijing City. This contract expands the current dedicated fiber access services of 2 Megabits per second to include another 1 Megabit per second of capacity.

Mr. Brad Woods, CEO of China Wireless commented, "This contract renewal demonstrates this customer's confidence in our quality of service. Our high quality service will provide existing customers value added services. We are aggressively extending the value added services to all of our customers."

About Beijing Hezhong Logistic, Inc.:

Beijing Hezhong, founded in 2000, is engaged in providing professional logistic services. During the past several years it has attained significant performance in logistic service field. Beijing Hezhong has over 100 transport vehicles and two storehouses of about 20,000 square meters. In order to provide better service to its customers, Beijing Hezhong has built a national system of logistic network and a private logistic information system. In 2003, the Committee of China Food Industry awarded it to "model basestation of food logistic in China" and "model training basestation of food logistic in China".

About China Wireless Communications, Inc.

www.chinawirelesscommunications.com

China Wireless Communications, Inc., headquartered in Denver, CO provides a suite of broadband data services, including support for Internet access and Voice over IP in Beijing, China through its wholly owned subsidiary, In-Touch Communications. We use secure, reliable fixed wireless technology to provide the 'last mile' connection to link bandwidth-hungry businesses to our fiber-optic backbone, and to the networks of our telecommunications partners. Our "Wireless Fiber" services provide the capacity and reliability of fiber-optic networks, over a fixed wireless connection. As a result, we capitalize on faster deployment and maintain targeted capital spending available only through these advanced technologies. Our systems are used to provide redundant high-speed network access connections, Voice over IP and transport services that

include IP data, video and ISP services. The Company is publicly traded on the OTCBB under the symbol "CWLC".

Forward Looking Statements:

Statements regarding financial matters in this press release other than historical facts are “forward-looking statements” within the meaning of section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and as that term is defined in the Private Securities Litigation Reform Act of 1995. The company intends that such statements about the Company’s future expectations, including future revenues and earnings, and all other forward-looking statements be subject to the safe harbors created thereby. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company’s actual results may differ materially from the expected results.
