

CHINA WIRELESS ANNOUNCES MANAGEMENT APPOINTMENTS

Denver, CO, June 3, 2004, China Wireless Communications, Inc. (OTC Bulletin Board: CWLC) and its Board of Directors are pleased to announce the appointment of Mr. Pedro (Pete) E. Racelis III to the position of President & CEO of China Wireless effective immediately. Mr. Racelis previously held the position of VP North American Sales and will continue in that capacity in addition to the new duties.

Mr. Racelis has been with China Wireless since March 2003, and has been instrumental in introducing the Company to several telecommunication and cable companies both domestically and internationally. Mr. Racelis' background includes direct sales and management of channel partners for more than 19 years. Prior to joining China Wireless, he sold hardware and software to telecommunications carriers, financial institutions, and commercial businesses both nationally and internationally throughout North America.

In addition, the Company is pleased to announce the appointment of Dr. Allan R. Rabinoff as Chairman of the Board for China Wireless. Dr. Rabinoff brings a wealth of experience including 20 years of extensive international experience in the areas of project identification, contract negotiation, cross-cultural team building, marketing, sales, M&A strategy and business development. The majority of his international projects have been in the Far East.

The Company also reports that further to its press release of May 26, 2004, it has effectively been removed as of the close of business May 28, 2004 from the Berlin-Bremen Stock Exchange as per the Company's request. The Berlin Exchange will no longer permit the trading of China Wireless on that exchange. We appreciate the cooperation of the Berlin Exchange in terminating the Berlin listing.

About China Wireless Communications, Inc.

(www.chinawirelesscommunications.com)

China Wireless Communications, Inc., headquartered in Denver, CO provides a suite of broadband data services, including support for Internet access and Voice over IP in Beijing, China through its wholly owned subsidiary, In-Touch Communications. We use secure, reliable fixed wireless technology to provide the 'last mile' connection to link bandwidth-hungry businesses to our fiber-optic backbone, and to the networks of our telecommunications partners. Our "Wireless Fiber" services provide the capacity and reliability of fiber-optic networks, over a fixed wireless connection. As a result, we capitalize on faster deployment and maintain targeted capital spending available only through these advanced technologies. Our systems are used to provide redundant high-speed network access connections, Voice over IP and transport services that include IP data, video and ISP services. The Company is publicly traded on the OTCBB under the symbol "CWLC".

Forward Looking Statements:

Statements regarding financial matters in this press release other than historical facts are “forward-looking statements”. The company intends that such statements about the Company’s future expectations, including future revenues and earnings, and all other forward-looking statements be subject to the safe harbors created thereby. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company’s actual results may differ materially from the expected results.
