

## **CHINA WIRELESS CONDUCTS WEBCAST INTERVIEW WITH THE GREEN BARON INVESTORS SOCIETY**

Denver, CO, June 15, 2004, China Wireless Communications, Inc. (OTC Bulletin Board: CWLC) announces that newly appointed President & CEO Pedro (Pete) Racelis III together with Doug Morgan, Executive Consultant for Business Development have conducted a CEO Webcast to shareholders and the investment community on the current and future prospects of China Wireless. This webcast is conducted by Evergreen Marketing, Inc. and is now available to the general public on The Green Baron Investors Society's website at [www.thegreenbaron.com](http://www.thegreenbaron.com).

"This CEO Webcast is a great way for us to deliver more commentary on the many exciting press releases that China Wireless has recently announced." stated Racelis. He went on to say, "I hope investors find this CEO Webcast helpful in further understanding the tremendous potential of our business model that concentrates on the growth of China."

The CEO Webcast with Peter Racelis and Doug Morgan of China Wireless Communications is conducted by Evergreen Marketing, Inc. and their subsidiary The Green Baron Investors Society. Evergreen Marketing has also been retained to assist in various marketing and consulting services which include helping create a supportive relationship between the company and its shareholders. ### **About China Wireless Communications, Inc.**

( [www.chinawirelesscommunications.com](http://www.chinawirelesscommunications.com) )

China Wireless Communications, Inc., headquartered in Denver, CO provides a suite of broadband data services, including support for Internet access and Voice over IP in Beijing, China through its wholly owned subsidiary, In-Touch Communications. We use secure, reliable fixed wireless technology to provide the 'last mile' connection to link bandwidth-hungry businesses to our fiber-optic backbone, and to the networks of our telecommunications partners. Our "Wireless Fiber" services provide the capacity and reliability of fiber-optic networks, over a fixed wireless connection. As a result, we capitalize on faster deployment and maintain targeted capital spending available only through these advanced technologies. Our systems are used to provide redundant high-speed network access connections, Voice over IP and transport services that include IP data, video and ISP services. The Company is publicly traded on the OTCBB under the symbol "CWLC".

### **Forward Looking Statements:**

Statements regarding financial matters in this press release other than historical facts

are “forward-looking statements”. The company intends that such statements about the Company’s future expectations, including future revenues and earnings, and all other forward-looking statements be subject to the safe harbors created thereby. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company’s actual results may differ materially from the expected results.
