CHINA WIRELESS SIGNS A STRATEGIC COOPERATIVE CONTRACT WITH AN INFLUENTIAL COMMUNICATIONS COMPANY

Denver, CO, June 22, 2004, China Wireless Communications, Inc. (OTC Bulletin Board: CWLC) is pleased to announce that it has signed a strategic cooperative contract with Beijing Central Business District Telecom Corporation (“Beijing CBD”). This contract enables our two companies to jointly provide international communications services for large multinational companies in China.

Beijing CBD is an influential communications services company. With its numerous resources from government and telecom partners, it has constructed a comprehensive and open telecom platform, to provide communication services to customers located at the Tsinghua Science Park of Beijing, the Beijing Central Business District and its adjoining area. Over 120 of the world’s top 500 companies are located here. Beijing CBD has become one of major providers of communications services to these companies. Most noteworthy, it has the exclusive right to provide communications services in Tsinghua Science Park of Beijing.

Kent Lam, President of China Wireless’ Beijing operating subsidiary commented, “This contract further enriches our business and expands our high-end customer base by leveraging Beijing CBD resources.”

About Beijing Central Business District Telecom Corp.

Beijing Central Business District Telecom Corporation is founded by the management committee of the central business district of Beijing, Tsinghua University and other three sponsors. It is engaged in providing telecom value-added service, system integration, E-commerce and telecom application system. It covers most business district of Beijing and Tsinghua Science Park of Beijing and has got an extensive customer base, which includes many notable multinational companies. Utilizing its numerous resource in government, telecom, finance, management, etc, it has actively constructed a comprehensive telecom service platform to plan, design, construct, and operate a “digital Beijing central business district”.

About China Wireless Communications, Inc.

China Wireless Communications, Inc., headquartered in Denver, CO provides a suite of broadband data services, including support for Internet access and Voice over IP in Beijing, China through its wholly owned subsidiary, In-Touch Communications. We use secure, reliable fixed wireless technology to provide the 'last mile' connection to link bandwidth-hungry businesses to our fiber-optic backbone, and to the networks of our telecommunications partners. Our "Wireless Fiber" services provide the capacity

and reliability of fiber-optic networks, over a fixed wireless connection. As a result, we capitalize on faster deployment and maintain targeted capital spending available only through these advanced technologies. Our systems are used to provide redundant high-speed network access connections, Voice over IP and transport services that include IP data, video and ISP services. The Company is publicly traded on the OTCBB under the symbol "CWLC".

Forward Looking Statements:

Statements regarding financial matters in this press release other than historical facts are “forward-looking statements”. The company intends that such statements about the Company’s future expectations, including future revenues and earnings, and all other forward-looking statements be subject to the safe harbors created thereby. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company’s actual results may differ materially from the expected results.
