CHINA WIRELESS SIGNS NATIONAL DISTRIBUTION SERVICE CONTRACT WITH INTERNET APPLICATION SERVICE PROVIDER

Denver, CO, June 24, 2004, China Wireless Communications, Inc. (OTC Bulletin Board: CWLC) is pleased to announce that it has signed a technology service contract with Beijing Tonglian Wuxian Science and Development corporation, a fast-growing provider of internet application services with a national distribution channel. The one year contract enables China Wireless to provide fiber access service with a capacity of 2Mbs per second.

Mr. Kent Lam, President of the company's subsidiary operations in Beijing, China commented, "This contract increases our existing customer base and directly extends our business by leveraging Tonglian Wuxian's nationwide distribution channel in Beijing . We expect to further develop this business relationship with this rapidly growing corporation, to jointly provide services on VoIP and International Connectivity."

About Beijing Tonglian Wuxian science and development corporation

www.topbiz.cn

Beijing Tonglian Wuxian Science and Development Corporation is a fast-growing provider of internet-application services. It mainly provides the services of domain, virtual host, website construction, enterprise mailbox, Internet solutions, etc. Presently, it has set up seven braches with a marketing network covering the whole country to aggressively extend its business in China.

About China Wireless Communications, Inc.

China Wireless Communications, Inc., headquartered in Denver, CO provides a suite of broadband data services, including support for Internet access and Voice over IP in Beijing, China through its wholly owned subsidiary, In-Touch Communications. We use secure, reliable fixed wireless technology to provide the 'last mile' connection to link bandwidth-hungry businesses to our fiber-optic backbone, and to the networks of our telecommunications partners. Our "Wireless Fiber" services provide the capacity and reliability of fiber-optic networks, over a fixed wireless connection. As a result, we capitalize on faster deployment and maintain targeted capital spending available only through these advanced technologies. Our systems are used to provide redundant high-speed network access connections, Voice over IP and transport services that include IP data, video and ISP services. The Company is publicly traded on the OTCBB under the symbol "CWLC".

Forward Looking Statements:

Statements regarding financial matters in this press release other than historical facts are “forward-looking statements”. The company intends that such statements about the Company’s future expectations, including future revenues and earnings, and all other forward-looking statements be subject to the safe harbors created thereby. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company’s actual results may differ materially from the expected results.
