CHINA WIRELESS TO PROVIDE WIRELESS ACCESS SERVICE WITH BEIJING WANLIU IN THE SILICON VALLEY OF BEIJING

Denver, CO, July 6, 2004, China Wireless Communications, Inc. (OTC Bulletin Board: CWLC) is pleased to announce that it has signed a service contract with Beijing Wanliu Xinxing Real Estate Development Corporation (“Beijing Wanliu”), a leading real estate developer in Beijing. Under the terms of this contract, China Wireless will provide several broadband wireless access services for Leftbank Community, a well-known building owned by Beijing Wanliu. These services include designing and implementing a reliable wireless broadband network for Leftbank Community as well as value-added services for the broadband customers within the building.

Leftbank Community is located in Zhongguancun, the silicon valley of Beijing. Widely known and honored for achievement, Leftbank Community generates special attraction to IT enterprises and businesses that require Internet service, wireless access, system integration, VoIP and international connectivity. Leftbank Community has attracted 55 customers and can support up to 120 customers in its business community. As the community continues to increase its business tenants, their requirements for broadband connectivity will also increase.

Mr. Kent Lam, President of China Wireless’ Beijing operating subsidiary commented, “Our marketing and business strategy is focused on concentrating our resources to provide cost effective high-bandwidth services to buildings connected to our network. China Wireless customers enjoy more capacity, higher quality, and lower rates than competitive offerings.”

About Beijing Wanliu Xinxing Real Estate Development Corporation:

Beijing Wanliu Xinxing Real Estate Development Corporation is a leading real estate developer in Beijing. It is engaged in developing and selling real estate property as well as related real estate services. Beijing Wanliu has developed several well-known buildings in Beijing; the most well-known is Leftbank Community (<http://www.leftbank-china.com>), which strongly symbolizes the company’s prominence in Beijing.

About China Wireless Communications, Inc.

China Wireless Communications, Inc., headquartered in Denver, CO provides a suite of broadband data services, including support for Internet access and Voice over IP in Beijing, China through its wholly owned subsidiary, In-Touch Communications. We use secure, reliable fixed wireless technology to provide the 'last mile' connection to link bandwidth-hungry businesses to our fiber-optic backbone, and to the networks of

our telecommunications partners. Our "Wireless Fiber" services provide the capacity and reliability of fiber-optic networks, over a fixed wireless connection. As a result, we capitalize on faster deployment and maintain targeted capital spending available only through these advanced technologies. Our systems are used to provide redundant high-speed network access connections, Voice over IP and transport services that include IP data, video and ISP services. The Company is publicly traded on the OTCBB under the symbol "CWLC".

Forward Looking Statements:

Statements regarding financial matters in this press release other than historical facts are "forward-looking statements". The company intends that such statements about the Company's future expectations, including future revenues and earnings, and all other forward-looking statements be subject to the safe harbors created thereby. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company's actual results may differ materially from the expected results.
