

CHINA WIRELESS EXPANDS SERVICE CONTRACT WITH PROFESSIONAL EMC MANUFACTURER

Denver, CO, July 14, 2004, China Wireless Communications, Inc. (OTC Bulletin Board: CWLC) is pleased to announce that it has renewed a service contract with Beijing Jones Corporation, a professional manufacturer of EMC (Electro Magnetic Compatibility) products. This contract expands the connection speed of Beijing Jones Corporation's existing dedicated access service from 216 kilobytes per second to 512 kilobytes per second to meet the increasing bandwidth requirements of the company.

Mike Bowden, Vice President of Technology for China Wireless, commented, "This contract renewal is another example of our customer's confidence and satisfaction with the quality of service we provide. We continually provide our customers with services that benefit the growth of their business."

About Beijing Jones Corporation:

www.jones-corp.com

Beijing Jones Corporation, founded in 1993, is a leading provider of EMC service and one of the earliest manufacturers of EMC products in China. The company has developed a series of prominent EMC products to serve its extensive customer base in the Chinese aviation and spaceflight industry, communications and electric industry. The Company's core customer base includes Nokia, GE, Motorola, Schneider, Lucent, Siemens, and Huawei among others. The company is located in Beijing's economic-technological development area.

About China Wireless Communications, Inc.

China Wireless Communications, Inc., headquartered in Denver, CO provides a suite of broadband data services, including support for Internet access and Voice over IP in Beijing, China through its wholly owned subsidiary, In-Touch Communications. We use secure, reliable fixed wireless technology to provide the 'last mile' connection to link bandwidth-hungry businesses to our fiber-optic backbone, and to the networks of our telecommunications partners. Our "Wireless Fiber" services provide the capacity and reliability of fiber-optic networks, over a fixed wireless connection. As a result, we capitalize on faster deployment and maintain targeted capital spending available only through these advanced technologies. Our systems are used to provide redundant high-speed network access connections, Voice over IP and transport services that include IP data, video and ISP services. The Company is publicly traded on the OTCBB under the symbol "CWLC".

Forward Looking Statements:

Statements regarding financial matters in this press release other than historical facts are "forward-looking statements". The company intends that such statements about the Company's future expectations, including future revenues and earnings, and all

other forward-looking statements be subject to the safe harbors created thereby. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company's actual results may differ materially from the expected results.
