CHINA WIRELESS SIGNS SERVICE CONTRACT WITH RAPIDLY GROWING VOICE SERVICE INTERNET PROVIDER

Denver, CO, July 20, 2004, China Wireless Communications, Inc. (OTC Bulletin Board: CWLC) is pleased to announce that it has signed a service contract with Beijing Xintong Hongda Company ("Xintong Hongda"), a rapidly growing provider of voice service internet applications. This contract enables China Wireless to provide high speed wireless fiber access transport connecting customers to Xintong Hongda's network.

Mr. Kent Lam, President of China Wireless's subsidiary commented, "With the completion of our metro network construction and our effort to expand our wireless access services in Beijing, more and more companies request that we provide cost-effective and high-quality broadband service for them. This contract with Xintong Hongda is a typical example."

About Beijing Xintong Hongda Company

Beijing Xintong Hongda Company, founded in 2001, is a fast-growing provider of voice service based Internet application. The company is engaged in providing VoIP and VOD service. In addition, it directly distributes some IP products for China Telecom and other carriers. At present, with the development of voice service in China, the company is fast expanding its business.

About China Wireless Communications, Inc.

China Wireless Communications, Inc., headquartered in Denver, CO provides a suite of broadband data services, including support for Internet access and Voice over IP in Beijing, China through its wholly owned subsidiary, In-Touch Communications. We use secure, reliable fixed wireless technology to provide the 'last mile' connection to link bandwidth-hungry businesses to our fiber-optic backbone, and to the networks of our telecommunications partners. Our "Wireless Fiber" services provide the capacity and reliability of fiber-optic networks, over a fixed wireless connection. As a result, we capitalize on faster deployment and maintain targeted capital spending available only through these advanced technologies. Our systems are used to provide redundant high-speed network access connections, Voice over IP and transport services that include IP data, video and ISP services. The Company is publicly traded on the OTCBB under the symbol "CWLC".

Forward Looking Statements:

Statements regarding financial matters in this press release other than historical facts are "forward-looking statements". The company intends that such statements about the Company's future expectations, including future revenues and earnings, and all

other forward-looking statements be subject to the safe harbors created thereby. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company's actual results may differ materially from the expected results.
