

China Wireless announces Distributor Agreement with Rongji Enterprise

Denver, CO, Aug 21, 2003/PR Newswire-FirstCall/China Wireless Communications, Inc. (OTC Bulletin Board: CWLC) announces the Company has signed an Agreement with Rongji Enterprise to distribute their RJ-iTOP system.

The RJ-iTOP default network scanning system is used to protect wireless broadband networks. This system is deployed in the information security emergency project of China 863 plan.

According to Mr. Kent Lam, President, CWLC's Beijing operations, "we are very pleased with this distributor agreement. This cooperation will increase our market development in China, and it will add great value to both companies."

About Rongji Enterprise.

Rongji Enterprise founded in 1993. It is an important high-tech corporation which is engaged in information system integration and software development in China.

Forward-Looking Statements

Statements regarding financial matters in this press release other than historical facts are "forward-looking statements" within the meaning of section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and as that term is defined in the Private Securities Litigation Reform Act of 1995. The Company intends that such statements about the Company's future expectations, including future revenues and earnings, and all other forward-looking statements be subject to the safe harbors created thereby. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company's actual results may differ materially from the expected results.
