**CHINA WIRELESS PROVIDES TECHNICAL SUPPORT FOR BUILDING CONNECTION**

DENVER, CO December 17, 2003 -- China Wireless Communications, Inc. (OTCBB: CWLC) announces an agreement with Beijing Shangdi Real Estate Management Company and its properties, which include Shangdi International Entrepreneur Mansion, to provide broadband network connection solutions. China Wireless will design, build and utilize a suite of telecom technologies to complete the network enabling the tenants of the building to obtain easy broadband access to the Internet. This agreement also allows China Wireless to offer network-based system integration and system test services to the clients of the building in the future.

Shangdi International Entrepreneur Mansion is located in the Beijing Shangdi Hi-Tech Park. Its tenants are mainly hi-tech companies that have high level bandwidth requirements. China Wireless will provide its network services to these tenants and fulfill their immediate need for their broadband requirements.

According to Mr. Kent Lam, the president of China Wireless's Beijing operation, "Providing Internet access to buildings is one our major marketing strategies to increase our customer base at a lower cost. We have established a new department internally that focuses on serving the building access segment and implementing this strategy. China Wireless is preparing to launch series of marketing programs to attract these potential customers. We intend develop more customers within a building offering lower costs for new customers requiring broadband access to the Internet."

**About China Wireless Communications, Inc.:**

([www.chinawirelesscommunications.com](http://www.chinawirelesscommunications.com))

China Wireless Communications, Inc. based in Denver, CO develops, installs and markets wireless broadband networks and provides internet access in Beijing, China.
