CHINA WIRELESS TO PROVIDE DATA HOSTING VALUE ADD SERVICE

Denver, CO, July 27, 2004, China Wireless Communications, Inc. (OTC Bulletin Board: CWLC) is pleased to announce information hosting as a value add to our existing high speed broadband transport service. The new hosting service is part of a suite of products that will meet customers' increasing demand for reliable and secure data storage. The capacity of hosting required by each customer is based on their business and systems requirements.

Mr. Kent Lam, President of China Wireless subsidiary commented, "This offering will further enrich our existing value-added services to existing and future customers. We are seeing an increase in the number of requests for value-added services and this service, one of several that will help our customers increase their business productivity."

About China Wireless Communications, Inc.

China Wireless Communications, Inc., headquartered in Denver, CO provides a suite of broadband data services, including support for Internet access and Voice over IP in Beijing, China through its wholly owned subsidiary, In-Touch Communications. We use secure, reliable fixed wireless technology to provide the 'last mile' connection to link bandwidth-hungry businesses to our fiber-optic backbone, and to the networks of our telecommunications partners. Our "Wireless Fiber" services provide the capacity and reliability of fiber-optic networks, over a fixed wireless connection. As a result, we capitalize on faster deployment and maintain targeted capital spending available only through these advanced technologies. Our systems are used to provide redundant high-speed network access connections, Voice over IP and transport services that include IP data, video and ISP services. The Company is publicly traded on the OTCBB under the symbol "CWLC".

Forward Looking Statements:

Statements regarding financial matters in this press release other than historical facts are "forward-looking statements". The company intends that such statements about the Company's future expectations, including future revenues and earnings, and all other forward-looking statements be subject to the safe harbors created thereby. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company's actual results may differ materially from the expected results
