CHINA WIRELESS COMMUNICATIONS TO PROVIDE HIGHSPEED WIRELESS ACCESS SERVICE TO BEIJING'S TIANHONG PLAZA HOTEL

Denver, CO, July 29, 2004, China Wireless Communications, Inc. (OTC Bulletin Board: CWLC) signs service contract with Beijing Tianhong Plaza Hotel ("Tianhong"), one of the premier four-star hotels, to provide highspeed broadband access service. The Tianhong Plaza Hotel's clients will be able to connect directly to the Internet eliminating the cumbersome dial-up process and experience high speed capacity of 8 Megabytes per second.

Dr Allan Rabinoff, COO of China Wireless Communications commented, "Beijing has over 570 star-class hotels and the city is anticipating the addition of 230 by 2008. We foresee these star-class hotels requiring high speed broadband access for all their travelers who require accessing the Internet quickly. We expect that our broadband access will be a value add benefit to the hotel's clientele."

About Beijing Tianhong Plaza Hotel

(www.tianhongplaza.com)

Beijing Tianhong Plaza Hotel, a four-star plaza hotel, is located in Zhong Guancun, the silicon valley of Beijing and surrounded by Beijing's university and research institute. The hotel features a magnificent 3-storey atrium, 394 rooms including 31 suites, 24 hour international restaurant, 24 hour in-room dining, Chinese restaurant, Japanese restaurant, cocktail bar, lobby lounge, extensive conference and banquet facilities, Plaza Club executive floors, business center, health club, hair salon, travel agent and retail shopping.

About China Wireless Communications, Inc.

China Wireless Communications, Inc., headquartered in Denver, CO provides a suite of broadband data services, including support for Internet access and Voice over IP in Beijing, China through its wholly owned subsidiary, In-Touch Communications. We use secure, reliable fixed wireless technology to provide the 'last mile' connection to link bandwidth-hungry businesses to our fiber-optic backbone, and to the networks of our telecommunications partners. Our "Wireless Fiber" services provide the capacity and reliability of fiber-optic networks, over a fixed wireless connection. As a result, we capitalize on faster deployment and maintain targeted capital spending available only through these advanced technologies. Our systems are used to provide redundant high-speed network access connections, Voice over IP and transport services that include IP data, video and ISP services. The Company is publicly traded on the OTCBB under the symbol "CWLC".

Forward Looking Statements:

Statements regarding financial matters in this press release other than historical facts are “forward-looking statements”. The company intends that such statements about the Company’s future expectations, including future revenues and earnings, and all other forward-looking statements be subject to the safe harbors created thereby. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company’s actual results may differ materially from the expected results.
