CHINA WIRELESS TO PROVIDE VDSL SERVICE FOR SUN CUPID (SHENZHEN) ELECTRICS COMPANY

Denver, CO, August 5, 2004, China Wireless Communications, Inc. (OTC Bulletin Board: CWLC) is pleased to announce that it has signed a service contract with Sun Cupid (Shenzhen) Electrics Company Beijing Branch ("Sun Cupid"). Sun Cupid is located in the desirable Leftbank Community, a building project already connected to China Wireless' fiber network. According to this contract, China Wireless will provide Sun Cupid a very high bit-rate digital subscriber line (VDSL) service with a capacity of 10Mbps per second for one year.

Mr. Kent Lam, President of China Wireless' subsidiary in Beijing stated, "We are now actively providing Sun Cupid with this VDSL service and have been retained by them to locate other buildings in Beijing to provide them with additional broadband services. We have already launched our marketing program aimed at attracting new customers located in our connected buildings."

About Sun Cupid (Shenzhen) Electronics Company Beijing Branch

(www.yingyutong.com)

Sun Cupid (Shenzhen) Electronics Company, wholly owned by famous Hong Kong Sun Cupid Industries Ltd (suncupid.com.cn), markets, distributes and sells a wide range of products under the brand name "Sun Cupid". Sun Cupid is headquartered in Shenzhen, and has 12 regional branch offices located in all the major cities in China. Each of these branch offices is responsible for the distribution in its region. Its Beijing Branch, located in Leftbank Community, a famous building in Beijing City, is now aggressively selling its software and equipment to learn English.

About China Wireless Communications, Inc.

China Wireless Communications, Inc., headquartered in Denver, CO provides a suite of broadband data services, including support for Internet access and Voice over IP in Beijing, China through its wholly owned subsidiary, In-Touch Communications. We use secure, reliable fixed wireless technology to provide the 'last mile' connection to link bandwidth-hungry businesses to our fiber-optic backbone, and to the networks of our telecommunications partners. Our "Wireless Fiber" services provide the capacity and reliability of fiber-optic networks, over a fixed wireless connection. As a result, we capitalize on faster deployment and maintain targeted capital spending available only through these advanced technologies. Our systems are used to provide redundant high-speed network access connections, Voice over IP and transport services that include IP data, video and ISP services. The Company is publicly traded on the OTCBB under the symbol "CWLC".

Forward Looking Statements:

Statements regarding financial matters in this press release other than historical facts are “forward-looking statements”. The company intends that such statements about the Company’s future expectations, including future revenues and earnings, and all other forward-looking statements be subject to the safe harbors created thereby. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company’s actual results may differ materially from the expected results.
