CHINA WIRELESS DELIVERS ACCESS SERVICE FOR LOGISTIC SOLUTIONS PROVIDER

Denver, CO, August 10, 2004, China Wireless Communications, Inc. (OTC Bulletin Board: CWLC) is pleased to announce that it signed a service contract with Beijing Join-Network Company, a leading provider of logistic solutions. This one-year contract provides Beijing Join-Network with a 2Mbps per second wireless fiber broadband transport access.

Dr. Allan Rabinoff, COO of China Wireless commented, "Beijing has at least 45 third-party logistic enterprises and it is expected to increase over the next year. These enterprises depend on high-speed broadband service to support their business growth. China Wireless is able to provide that support using wireless fiber broadband transport, thus enabling these enterprises further growth opportunities."

About Beijing Join-Network Company:

(www.join-network.com)

Beijing Join-Network Company, founded in 2000, is a leading provider of logistic solutions. The company develops and provides logistic services involving software, equipment, network construction and system integration.. It has developed prominent logistic or software systems for its customers which range from the government to large businesses. The company is fast becoming the acknowledged third party provider of logistic system solutions.

About China Wireless Communications, Inc.

China Wireless Communications, Inc., headquartered in Denver, CO provides a suite of broadband data services, including support for Internet access and Voice over IP in Beijing, China through its wholly owned subsidiary, In-Touch Communications. We use secure, reliable fixed wireless technology to provide the 'last mile' connection to link bandwidth-hungry businesses to our fiber-optic backbone, and to the networks of our telecommunications partners. Our "Wireless Fiber" services provide the capacity and reliability of fiber-optic networks, over a fixed wireless connection. As a result, we capitalize on faster deployment and maintain targeted capital spending available only through these advanced technologies. Our systems are used to provide redundant high-speed network access connections, Voice over IP and transport services that include IP data, video and ISP services. The Company is publicly traded on the OTCBB under the symbol "CWLC".

Forward Looking Statements:

Statements regarding financial matters in this press release other than historical facts are "forward-looking statements". The company intends that such statements about the

Company's future expectations, including future revenues and earnings, and all other forward-looking statements be subject to the safe harbors created thereby. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company's actual results may differ materially from the expected results.
