CHINA WIRELESS PROVIDES HIGHSPEED ACCESS SERVICE FOR THE BEIJING EDIFIER HI-TECH CENTER

Denver, CO, August 11, 2004, China Wireless Communications, Inc. (OTC Bulletin Board: CWLC) is pleased to announce that it has signed a service contract with Beijing Edifier Hi-Tech Center, which is a leading researcher and manufacturer of electronic speakers in China and located in Leftbank Community, an existing connected building to China Wireless' network. According to the contract, China Wireless will provide 10 Megabytes of high-speed access service to the Internet for a term of 12 months .

Kent Lam, President of China Wireless' Beijing subsidiary commented, "The Leftbank Community has afforded our company the opportunity to offer high speed access service to many of their businesses that do not have broadband service access. The Beijing Edifier Hi-Tech Center is one such tenant that needs broadband access to reach more of its customers and vendors. We are extremely delighted with the confidence this company has bestowed upon us by signing a 12 month term contract."

About Beijing Edifier Hi-Tech Center

(www.edifier.com)

Beijing Edifier Hi-Tech Center is a subsidiary of Edifier Group. Edifier Group is one of China's first specialized manufacturers producing genuine wood enclosure speaker systems, and one of the first groups of loudspeaker manufacturers who have successfully developed an exclusive international market.

About China Wireless Communications, Inc.

China Wireless Communications, Inc., headquartered in Denver, CO provides a suite of broadband data services, including support for Internet access and Voice over IP in Beijing, China through its wholly owned subsidiary, In-Touch Communications. We use secure, reliable fixed wireless technology to provide the 'last mile' connection to link bandwidth-hungry businesses to our fiber-optic backbone, and to the networks of our telecommunications partners. Our "Wireless Fiber" services provide the capacity and reliability of fiber-optic networks, over a fixed wireless connection. As a result, we capitalize on faster deployment and maintain targeted capital spending available only through these advanced technologies. Our systems are used to provide redundant high-speed network access connections, Voice over IP and transport services that include IP data, video and ISP services. The Company is publicly traded on the OTCBB under the symbol "CWLC".

Forward Looking Statements:

Statements regarding financial matters in this press release other than historical facts are "forward-looking statements". The company intends that such statements about

the Company's future expectations, including future revenues and earnings, and all other forward-looking statements be subject to the safe harbors created thereby. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company's actual results may differ materially from the expected results.
