CHINA WIRELESS TO PROVIDE HIGHSPEED WIRELESS SERVICE FOR BEIJING PLUM BLESS CULTURE DEVELOPMENT COMPANY

Denver, CO, August 17, 2004, China Wireless Communications, Inc. (OTC Bulletin Board: CWLC) is pleased to announce that it has signed a service contract with Beijing Plum Bless Culture Development Company ("Plum"). China Wireless will provide Plum, located in a suburb of Beijing City, with high-speed wireless broadband service from the company to Chinanet, one of the major Internet backbones in China.

Dr. Allan Rabinoff, Chairman of China Wireless commented, "In China, the monopoly carrier's backbone network usually cannot reach customers in neighboring suburbs. By utilizing our wireless access technology, these customers can be easily connected to the Internet backbone network with a lower cost compared to other access technologies. We plan to continue our role to monopoly carriers of China, to ensure that our product suite is effectively deployed in Beijing."

About Beijing Plum Bless Culture Development Company:

Beijing Plum Bless Culture Development Company is a rapidly growing company located in the suburb of Beijing City. The company is engaged in organizing and developing exhibition activities. Their customers cover various segments which include art, culture and sports. Beijing Plum Bless Development Company is becoming the recognized leader in the development and organization of exhibition activities.

About China Wireless Communications, Inc.

China Wireless Communications, Inc., headquartered in Denver, CO provides a suite of broadband data services, including support for Internet access and Voice over IP in Beijing, China through its wholly owned subsidiary, In-Touch Communications. We use secure, reliable fixed wireless technology to provide the 'last mile' connection to link bandwidth-hungry businesses to our fiber-optic backbone, and to the networks of our telecommunications partners. Our "Wireless Fiber" services provide the capacity and reliability of fiber-optic networks, over a fixed wireless connection. As a result, we capitalize on faster deployment and maintain targeted capital spending available only through these advanced technologies. Our systems are used to provide redundant high-speed network access connections, Voice over IP and transport services that include IP data, video and ISP services. The Company is publicly traded on the OTCBB under the symbol "CWLC".

Forward Looking Statements:

Statements regarding financial matters in this press release other than historical facts

are “forward-looking statements”. The company intends that such statements about the Company’s future expectations, including future revenues and earnings, and all other forward-looking statements be subject to the safe harbors created thereby. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company’s actual results may differ materially from the expected results.
